The Boracay European International School occasionally uses several types of documents (listed below) for information dissemination and promotion within the framework of educational project development.

- Photos taken during activities
- Audio-video recordings done in class or during school excursions
- Materials produced by the students themselves

The above may be integrated in the promotional materials of BEIS (e.g. flyers, brochures, posters, banners, etc.). They may also be used for multimedia projects such as the BEIS CD-ROM presentation. Because these may also be disseminated through the Internet in which controlling the use of the materials will be impossible, BEIS wishes to advise that you may exercise the option to refuse.

THANK YOU.**
